PROFESSIONAL SUMMARY

Motivated and detail-oriented BCA final-year student with hands-on experience in data analysis, data entry, Microsoft Excel (advanced), Power BI, Python, MySQL and computer operations. Completed industry-backed virtual job simulations with BCG X, British Airways and PwC US. Skilled in data cleaning, exploratory data analysis, Pivot Tables, VLOOKUP, report preparation, record management, internet and email handling. Achieved 94.64 percentile in Naukri Campus Young Turks 2025. Seeking an entry-level role as Data Analyst, MIS Executive, Back Office Executive, Data Entry Operator or Computer Operator.

KEY SKILLS

Programming Languages:	Python, Java, C, C++
Data & Analytics:	Data Analysis, Data Cleaning, EDA, Pandas, NumPy, Power BI, Data Visualization
Database:	MySQL, Structured Data Handling, CRUD Operations
Microsoft Office:	MS Excel (Advanced), MS Word, PowerPoint, Pivot Tables, VLOOKUP, SUMIF, IF
Computer Operations:	Data Entry, Typing, Record Management, File Handling, Internet & Email, Online Forms
Soft Skills:	Communication, Problem Solving, Teamwork, Time Management, Adaptability, Quick Learning

EDUCATION

Bachelor of Computer Applications (BCA) — 3rd Year, Pursuing	2024 – Present
Rama Institute of Higher Education, Kiratpur, Bijnor Affiliated: MJPRU, Bareilly	
Class XII — Board of High School & Intermediate Education, UP	2023
Class X — Board of High School & Intermediate Education, UP	2021

PROJECTS

IPL 2025 Insights Dashboard	2025
Tech Stack: Python, Pandas, NumPy, Power BI, Data Visualization	
- Collected and cleaned raw IPL 2025 match and player data to remove inconsistencies and prepare it for analysis. - Performed exploratory data analysis (EDA) to identify performance trends, player comparisons and match-outcome patterns. - Built an interactive Power BI dashboard to present business-style analytical insights to non-technical stakeholders.	
Power BI Data Visualization Practice Project	2025
Tech Stack: Power BI Desktop, DAX, Charts, Maps, Slicers, Filters	
- Created interactive dashboards using bar charts, geo-maps and category-based slicers on sales and profit datasets. - Identified regional and category-level trends and communicated findings through clear, business-ready visual reports. - Strengthened competency in DAX measures, report layout design and data storytelling for BI and MIS analyst roles.	
Student Management System	2024
Tech Stack: Python / Java, File Handling, Structured Data, CRUD Logic	
- Designed a system to store and manage student records including name, roll number, course and marks. - Implemented basic Create, Read, Update and Delete (CRUD) operations with data validation and structured record handling. - Strengthened understanding of data organisation principles directly applicable to data-entry and back-office operations.	
Excel Data Management & Reporting Workflow	2025
Tech Stack: MS Excel (Advanced), Formulas, Pivot Tables, Conditional Formatting, Report Design	
- Built structured Excel workbooks using VLOOKUP, IF, SUMIF, Pivot Tables and conditional formatting for data analysis. - Prepared formatted management reports and organised records to support review and decision-making workflows. - Developed a practical, repeatable spreadsheet workflow mirroring real MIS executive and back-office data-entry tasks.	

VIRTUAL JOB SIMULATIONS (FORAGE)

BCG X — Data Science Job Simulation

September 2026

- Completed end-to-end data science workflow: business problem framing, data cleaning, EDA, feature engineering and model evaluation.
- Translated analytical findings into business-focused recommendations for a non-technical stakeholder audience.

British Airways — Data Science Job Simulation

September 2026

- Analysed customer buying behaviour data to assess lounge eligibility and predict purchasing patterns at Heathrow Terminal 3.
- Applied predictive thinking and behavioural analytics to a real airline operations dataset.

PwC US — Audit Job Simulation

August 2026

- Documented a client purchasing process, built a walkthrough and identified control gaps in line with audit standards.
- Produced a purchasing-process flowchart and risk-control matrix — strengthening structured business documentation skills.

CERTIFICATIONS

- Microsoft Excel Beginners to Advanced — SkillCourse | June 2026
- AI For All – AI Aware Program — Intel / Digital India | 2026
- Saviynt Identity Security for AI Age — Saviynt | December 2025
- Professional Networking for Career Growth — HP LIFE / HP Foundation | December 2025

ACHIEVEMENTS

- Scored 94.64 percentile in Naukri Campus Young Turks 2025 — received Certificate of Merit.
- Secured Rank 163 in Naukri Campus SSC CGL Contest #3.
- Completed industry-backed simulations from BCG X, British Airways and PwC US on Forage platform.

PERSONAL DETAILS

Date of Birth:	28 July 2005
Nationality:	Indian
Languages Known:	Hindi, English
Career Status:	Fresher — Available to Join Immediately
